The Alpine Journal 1953-68

Compiled by D. F. O. Dangar

SBN 9°523 04- 2

Preface

The present volume of the Index to the *Alpine Journal*, the fourth in the series, carries the Index from 1953 (Volume 59) to 1968 (Volume 73), the last year before the change of the *Journal* into a single annual volume.

The proposal for this continuation of the consolidated Index was made in late 1968, when the Committee invited Mr D. F. O. Dangar to undertake it. His willingness to do this in addition to the heavy burden of the Assistant Editorship of the *Alpine Journal* itself, and the speed with which he completed the vast amount of work involved, are very greatly appreciated; and the Alpine Club has recognised the outstanding contribution which he has made to the objects of the Club, through his work both on the *Alpine Journal* and on successive volumes of the Index, by electing him to Honorary Membership.

The thanks of the Club are also due to Mrs Sarah Hollis for her work on the typescript.

Foreword

This Index has been compiled on the same basis as the previous volume, but, to save space, the writers of obituaries and reviews have not been indexed.

In addition to portraits, illustrations that have been indexed are, in general, those of single mountains or mountain ranges which are likely to be of geographical interest. Pictures of pitches, or small sections of a climb, high camps and similar subjects have not been indexed: although of contemporary interest, it is felt that such illustrations, which usually in any case are referred to in the associated articles, can be omitted without serious detriment to the value of the Index.

The following abbreviations have been used:

Aig. = Aiguille	port. = portrait
asc. = ascent	Pt = Point
C.A.F. = Club Alpin Français	Pta = Punta
cr. = crossed, crossing	Pte = Pointe
desc. = descent	rece = reconnaissance
gl. = glacier	ref. = reference
ill. = illustration	tr. = traverse, traversed
Mt = Mount, Mont	U.I.A.A. = Union Internationale des Associations d' Alpinisme
Mte = Monte	U.L.A.G.M. = Union Internationale des Associations des Guides de Montagnes
N.Z. = New Zealand	vol. = volume
O.A.V. = Osterreichischer Alpen Verein	
obit. = obituary
