MOUNT MALLORY AND MOUNT IRVINE.

THE Mount Everest Committee have received, through the courtesy of Mr. Edward Arnold, the following extract from a letter of Mr. Edward Rainey, Executive Secretary to the Mayor of San Francisco :—

‘ Last summer Mr. Norman Clyde, of Independence, Inyo County, California, climbed two peaks in the vicinity of Mount Whitney (14,501 ft.), the highest mountain in the United States. No record exists of a previous climb of these peaks.

‘ He suggested to the Sierra Club that the Club sponsor the naming of these peaks after Mallory and Irvine. The Club so recommended to the United States Geographic Board, and the Board has given its approval.

‘ Mallory (13,870 ft.) is on the main crest of the Sierra Nevada, about five miles S.E. of Mount Whitney. Irvine (13,790 ft.) is about a mile E. of Mallory. These peaks are in a wild and very beautiful region, and the altitudes equal or exceed those of our most interesting peaks.’
